House Government Operations Subcommittee on Economy, Energy, and Natural Resources staff, to respond to his inquiries about the availability of data obtained by U.S. Government on overhead reconnaissance. After checking with ______, CSS/NFAC, I advised him of the unclassified sources of overhead reconnaissance within the DIA, U.S. Geological Survey, NASA, and U.S. Department of Agriculture. I also mentioned to him that the intelligence collection and declassification is placed within the DIA system, which I had already mentioned to him. Mr. Miller appreciated this information and indicated that it was proposed to him to check on the biographical systems and other long range climatology data.
